CARBON LODGE A.F. & A.M. ELECT OFFICERS FOR 1928

At the regular meeting of the Carbon Lodge No. 107, A.F. & A.M., held on Tuesday Dec. 6, the following officers were elected for the ensuing Masonic year.

Bro. G.W. McNeill W.M.
Bro. R.H. Purdy S.W.
Bro. C.B. Oakley J.W.
W. Bro. S.F. Torrance Secretary
R.W. Bro. W.A. Braisher, Treas.
Bro. T. Moss.

The installation will take place on Dec. 27, being the festival of St. John, the Evangelist.

"Look," said the American, pointing to the Statue of Liberty.

"There's New York and Liberty—as American as the bison itself." "My word," exclaimed the Englishman, "Do you claim the jolly old bison as your own, too?" "Surely," replied the American. "The bison is a species of American buffalo." "Ho, ho," laughed the Londoner, "if I didn't always think that the bison was something to wash your 'ands in.'"

First Canibal: The chief has hay fever.

Second cannibal: Serves him right. We warned him not to eat that grass widow.

The Govt. thermometer registered 42 below on Tuesday night. B-r-r-r.

LITTLE ITEMS OF LOCAL INTEREST

Miss Lita Gordon went into Calgary last Friday afternoon and has been spending the past week there. she is expected home tomorrow.

The Gamble Ladies' Aid will hold a tea and sale of home cooking and sewing, in the Farmers' Exchange hall next Saturday afternoon, Dec. 10th.

Mrs. J.J. Greenan and S. Carney left last Saturday morning for the East, where their mother is reported to be seriously ill.

Mrs. T.R. Olive returned on Saturday from a few days' visit in the City.

Mr. S. N. Wright returned on Saturday after spending the past couple of weeks in Winnipeg.

E. J. Ohlhauser has purchased Miss Williams' Orthophonic.

Edgar Anderson accompanied his brother, Noel, to the General hospital, Calgary, last Saturday and returned on Monday.

Mr. and Mrs. S. J. Garrett returned Friday from a few days' visit in Calgary.

—LOST On Saturday evening, Dec. 4, between C. Nash's store and the Stopp mine trail, a ladies Black Leather Hand Bag, containing small amount of money and 2 initialed silver tea spoons. Anyone returning same to Mrs. H. N. McNaughton, Box 208 Carbon, will be rewarded.

The Curling Ice is now practically ready with the exception of the rings and by the end of the week curling will probably commence. A meeting is in progress at the time of going to press, and rinks are being chosen for the season. It is anticipated that there will be at least ten rinks this year.

Owing to the wreck of a freight train on the north line of the C.N.R. the mail did not arrive in Carbon till late Tuesday afternoon.

Ray Sells was charged with the theft of a saddle from W.H. Foster and was summoned before Magistrate Saunders of Calgary. He pleaded guilty to the charge and was fined \$10 and costs.

—FOR SALE—7-room house in good location, in the Village of Carbon. Apply to Box 275, Carbon, for particulars.

F. J. Bessant was a visitor to Drumheller on Sunday and returned on Tuesday's train.

Born, to Mr. and Mrs. L. Coates on Wed. Dec. 7, a daughter.

Mr. and Mrs. J. Castiglione and Mrs. Chas. Nash left on Wednesday for Calgary.

Mrs. J. Parker and three children, of Edmonton, are visiting with Mrs. Parker's parents, Mr. and Mrs. J.H. Oliphant.

In spite of the stormy night a good sized crowd was in attendance at the dance last Thursday night in

the Farmers' Exchange hall, under the auspices of the Carbon Curling Club. Mrs. Trainors' four-piece orchestra of Calgary furnished the music for the evening and at midnight a delicious and refreshing repast was served. The evening was not a financial success, but we understand that a few dollars were added to the treasury of the Club.

—Butch Leitch has just received a stock of Christmas trees. All prices. Get yours now, before they are all gone. 2tp

G. Peters will receive donations of cash or clothing, for the Herald Christmas Fund. Leave your donations at the store and all parcels will be forwarded prepaid to the Fund and will be acknowledged through the columns of the Herald

It happened on a west-bound stage out in the western country. The coach had rounded a dangerous curve and several passengers were discussing stage robberies.

"I was on a coach several years ago and we were held up on this very spot," remarked a gay little flapper. "I saved my vanity case by sitting on it."

"Umph!" snorted the hard-boiled travelling man, who had been on the same trip. "I wish my wife had been along. We could have saved our suitcase!"

NOEL ANDERSON HURT IN PEERLESS MINE; THURS.

A very painful accident occurred last Thursday afternoon about 3 p.m., when Noel Anderson, who was working considerable distance underground at the time, had his leg broken when the roof of the mine caved in and pinned him to the ground. No time was lost in getting the injured man out of the mine and when Doctor McFarlane examined the fractured leg he found that the bones were broken in two places, below the knee and just above the ankle. The bones were set immediately and on Saturday Noel was taken into Calgary to the General hospital, where he will receive treatment and care and it will probably be some months before he will be able to walk again.

PRIMARY SCHOOL REPORT

GRADE II—Annie Harmston, Helen Blomkoist, Joe Frunk, G. Jealous, S. Malton, W. Dixon, L. McEntire, C. Nash, B. McQuade.

GRADE I Sr.—G. Bramley, M. Hesselgrave, B. Moore, R. LeMay, M. Shytka.

GRADE I Jr.—Florence Moss (Promoted to I Sr.), E. Fox, J. Rogers, F. Snihur, M. Leitch, C. Trumbley, F. Poxon, J. Heath, H. Wise, J. Skerry, Z. Fairbairn, E. McKay, J. Kyle, M. Hunt, M. Moore, D. Prouse, J. Gouldie, I. Gouldie, G. McGregor, E. Kaehn, B. Rogers, A. LeMay, I. Jacobs, L. Trepanier.

VELOUR HATS, imported, \$5 to \$7.50

BELTS, 25c to \$2.50.

Dozens of other equally attractive gifts that will show your thoughtfulness and good judgement.

Every gift attractively boxed in Xmas box with your card inserted ready for your message.

Watch for our List for the Ladies next week—or better still, come into the store and see the wonderful showing of dainty gifts we have assembled.

IF IT COMES FROM **PETERS** THEY KNOW IT'S GOOD

Canada's Gold and what it means to You!

Never in the history of a country has any industry shown such phenomenal growth as that of the Canadian Mining Industry during the past few years.

Never before in the history of any country or industry have such unbelievably large profits been returned to the individual investors.

More important still! NEVER BEFORE HAS THERE BEEN A SITUATION SUCH AS THIS WHERE A MAN WITH ONLY LIMITED CAPITAL MAY INVEST A MODERATE AMOUNT WITH SUCH EXCEPTIONAL OPPORTUNITY FOR LARGE RETURNS FROM HIS INVESTMENT!

There is no reason for not knowing what is going on! Upon receipt of a letter or postal card, the company named below will cheerfully furnish reliable information to anyone interested in learning full details of one of the most outstanding mining developments of recent years in the entire North country.

THE NORTH AMERICAN DEVELOPMENT LIMITED
CANADIAN PACIFIC BUILDING
TORONTO, ONTARIO

On To The North!

Whatever misgivings the people of Canada have had regarding the building of the Hudson Bay Railway and the creation of a worthwhile port on the Bay are being rapidly dissipated as week after week announcements are made of conditions and discoveries and new developments in the vast area to be opened and served by the new route.

In times past pessimistic opinions were held and views expressed relative to Canada's future and the doubtful success of many Canadian enterprises. The prairie section of Canada would never, according to official reports to the British Government, be fit for agricultural settlement. Later, the construction of the C.P.R. was described as the apex of folly.—It would not pay for axle grease. Still later, it was emphatically declared that wheat could not be successfully grown west of Moose Jaw. There was a time when the idea of making Montreal an ocean port was openly ridiculed, the world being asked to consider the impracticability of creating an ocean port hundreds of miles from the sea up a river frozen solid for many months of the year.

But Western Canada has become the granary of the Empire and has made Canada the greatest wheat exporting country in the world; hundreds of millions of bushels are raised west of Moose Jaw; the C.P.R. is the greatest transportation system under one management in the world today; Montreal stands second only to New York as the chief port of the North American continent.

And now that construction of the Hudson Bay Railway is being energetically proceeded with, enthusiasm and businesslike methods having replaced former lukewarmness and decisions based on guesswork, the old opposition is dying away as step by step former fallacies and misconceptions are removed. So great has been the progress made in this direction that all political parties are outspoken in support of and pledged to the project, thus removing it from the arena of partisan controversy.

The railway has been completed to within approximately 150 miles of Churchill, and contracts have been let for this additional mileage. Work on the creation of an up-to-date, fully equipped port has commenced. The continuous aerial survey of the straits now in progress has already brought the information, surprising to many doubting Thomases, that both Bay and Straits have remained free from ice for a much longer period than was formerly believed to be the case.

Opponents of the Bay project always contended that navigation would be so perilous, and, as a consequence, insurance rates on boats and cargoes so high as to be prohibitive, that no shipping company would undertake to establish a service on such a route. But already a responsible steamship company has opened negotiations with the Government for the establishment of a line of vessels operating in and out of Churchill, while insurance authorities have announced that there is no reason why the rates of insurance to be charged should be unduly high or a deterrent to the success of the route.

As if these things were not in themselves sufficient to justify the expenditure on the road to the Bay, there comes official announcement of the completion of arrangements between the Dominion Government, the Manitoba Government, and the wealthy Whitney interests of New York for the building of a branch line of railway from The Pas on the I.R. line to the Fin Flon mining area which will be a feeder to the Hudson Bay Railway and provide an enormous and paying traffic.

This contract further involves the development of a great power plant at White Mud Falls near the Hudson Bay line, the construction of a proper transmission line to the Fin Flon, and the establishment of great pulp mills, all of which will provide a huge volume of freight quite apart from the through traffic to and from Churchill. This subsidiary expenditure is estimated to reach no less a sum than fifty to sixty millions of dollars, and provides for extensive northern development which could not possibly be undertaken without the Hudson Bay Railway.

And it is confidently predicted that this is only a beginning, and that with the completion of the Hudson Bay Railway, and this new branch line feeder to it, there will follow a new era of exploration and prospecting that will result in uncovering as yet unknown sources of great mineral wealth.

Canada in the past has suffered the disadvantage of lacking depth commensurate with its great breadth. Development to the north in the next decade or two gives rich promise of removing that disadvantage.

It is bootless for a man to have an aim in life if he has no ammunition to back it up.

Wise is the man who does of his own free will that which he would otherwise shortly be compelled to do.

Autos For the Army

Motor Vehicles May Take the Place Of Horses In United States Army

Even in the army old hobble may lose caste and the motor vehicle take its place under the plans of the United States War Department. Instructions have been issued for an inquiry to determine to what extent automotive power can be substituted for animals in military transportation.

Several points are in favor of automotive transportation, according to army officers, especially in overseas movements, where animals are difficult to secure. The study will be made in practically every branch of the army. It will be commensurate with similar investigations in other armies, it is indicated.

W. N. U. 1710

Nitrogen From the Air

Scientists Must Decide Whether Atmosphere Will Be Exhausted

Britain now leads the world in the economic production of nitrogen from the air. Whether we can take too much nitrogen from the air, and be faced with the problem of an exhausted atmosphere instead of an exhausted soil is a point which chemists must decide. If it were humanly possible to disturb the balance, presumably the oxygen would gain ground at expense of the nitrogen; and, since oxygen is the incendiary and invigorator, animal life might blaze up into new phases of terrific energy that would keep pace with the vegetation that had been stimulated by the extracted nitrogen.

TRIALS OF INDIGESTION

Errors About This Trouble Into Which People Fall

Many people so far misunderstand the digestive system as to treat it like a machine; neglecting it until it works sluggishly, then irritating it into work again by the use of purgatives. The stomach needs help at all times, but a study of the process of digestion will show that purgatives, as commonly taken, are seldom necessary and often harmful.

To safeguard your digestion the diet must be controlled. Overeating is always harmful, but one must assimilate enough food to supply the needs of the blood. Remember, the blood has to carry nourishment to all parts of the body and find fuel for its energy. Hence when the blood becomes weak and fails to do its work, indigestion arises. Therefore the sure remedy for indigestion is to build up the blood. If you suffer from any form of indigestion choose your diet carefully and take wholesome nourishment. Above all, start building up your blood by taking a course of Dr. Williams' Pink Pills. Then under the influence of the new blood supply, your digestive system will respond naturally, your appetite improve and your food will do you good. So begin to improve your digestion by starting to take Dr. Williams' Pink Pills now.

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

According to a survey made over a long period of years by European experts, poplar trees are most frequently struck by lightning.

Asthma Overcome. The triumph over asthma has assuredly come. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has even known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it today from your dealer.

Curate—Will thou have this woman to—

Bride—Here, who are you calling "this woman?"

Makes Good Publicity Agent

Recent Speech Made By Prince Arouses Interest Of English Business Men

The extraordinary effect of the speech in praise of Canada and its opportunities made recently by the Prince of Wales before the Canada Club in London, is spreading all over the country. Immediately after the speech Canada House and the Canadian Pacific offices in London were deluged with inquiries from business men anxious to secure further information and a flood of enquiries has flowed in from Bristol, Liverpool and Glasgow as well as from London.

There has been a rush of inquiries from men interested in commerce and industry who are planning to go to Canada to investigate personally the prospects, and also from hundreds of intending immigrants.

The officials at Canada House express astonishment at the result of the speech and regard the Prince of Wales as the finest publicity agent that Canada has ever had.

One Drop of "Putnam's"—Corns Stop Aching

Isn't it wonderful—Just a drop or two of Putnam's on any sore corn and out comes all the pain. After a few applications the corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes any more. You can dance or walk in comfort. Be sure you use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere. Refuse a substitute for Putnam's—it's the best.

Recipes For This Week

(By Betty Barclay)

LEMON SAUCE

- 2 tablespoons butter.
- 3 tablespoons flour.
- 1/2 teaspoon salt.
- 1/4 teaspoon paprika.
- 1 1/2 cups water or meat stock.
- 3 tablespoons lemon juice.
- 1 tablespoon finely chopped parsley.

Melt butter, add flour, salt and paprika and when well mixed add water or meat stock. Bring to boiling point, stirring constantly, add lemon juice and parsley and serve.

CREOLE CAKE

- 1 1/2 cups of prepared cake flour, sifted.
- 3 teaspoons of baking powder.
- 1/2 teaspoon of salt.
- 1/2 teaspoon of cinnamon.
- 2 eggs well beaten.
- 1 cup of sugar.
- 3 tablespoons of shortening, melted.
- 2 ounces of chocolate, melted.
- 3/4 cup of milk.

Gradually beat the sugar into the eggs; add the melted shortening and and flour sifted, measured, and sifted again with the baking powder, salt and cinnamon. Bake in a pan 7 x 11 inches, about 45 or 50 minutes, in an oven at 350 degrees Fahrenheit.

When the cake is cool cover it with this frosting:

- 1 1/2 cup of confectioner's sugar which has been sifted.
- 3 tablespoons of cocoa.
- 3/4 cup of milk.

A scant half teaspoon of vanilla. Mix the sugar and cocoa together, then stir in the two liquids, mixing it all thoroughly.

Increase in Crime in the U.S.

Steadily Increasing Number Of Inmates In Prisons and Reformatories

It is indeed a sad commentary on current conditions that crime in all parts of the United States is growing with such rapidity. This situation is reflected in the steadily increasing number of inmates in prisons and reformatories. In a recent survey by the United States Census bureau, covering penal institutions in thirty-one states, it was found that between 1923 and 1926 the number of prisoners committed from the courts increased 28.3 per cent.—Thrill Magazine.

Find Bonnet 250 Years Old

An ancient bonnet of woven material was discovered by workmen who were carrying out repairs on the roof rafters of St. John's Church, Perth. How it came to be in its strange hiding place is a mystery. The bonnet, which is estimated to be 250 years old, is in a badly rotted condition.

Ming's Liniment for Colds

PIMPLES OVER FACE AND HANDS

Irritation Caused Scratching. Healed by Cuticura.

"I had pimples all over my face and hands. The pimples were small and festered, and the irritation caused me to scratch. Scratching caused eruptions, and I could not rest or sleep either day or night."

"I used several remedies but got no relief. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it three days I got relief so purchased more, and within a month I was completely healed." (Signed) Miss Adelaide Thomas, 45 Hohner Ave., Kitchener, Ont.

Use Cuticura Soap daily for the toilet, assisted by Cuticura Ointment when required, and have a clear, fresh complexion, free from pimples and blackheads.

Sample Each Free by Mail. Address: Canadian Import: "Cuticura, Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Building New Type 'Plane

Will Carry Two Persons and 100 Pounds Of Baggage

An entirely new type of civil aeroplane, costing only \$3,900, is being made at Peterboro, Ont., according to Capt. H. P. Ayres, who was in Ottawa conferring with officials of the air board.

Captain Ayres says the new craft has been designed with a view to solving the housing problem of machines and providing a fool-proof plane which the private individual can operate with a maximum of safety.

The new ship which carries two persons together with 100 pounds of baggage, has a cruising capacity of seven hours and can maintain a speed of 140 miles an hour.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Automobiles In Alberta

Another record has been established by Alberta in its automobile figures. To the end of October licenses issued this year were 79,369 as compared with 64,129 for the whole of the preceding year.

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste, it's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning; it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the look on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

SWALWELL ITEMS OF LOCAL INTEREST

The day school and Sunday school Xmas. Tree and entertainment will be held on Friday, Dec. 23. Parents are asked to keep this date in mind, the kiddies we feel sure will not be likely to forget.

Readers are also asked to bear in mind the Sale of work and afternoon tea to be held in the Rest Room on Saturday, Dec. 10, by the Swalwell Ladies' Aid. These teas are now noted for their excellence and every one in town on that day should not miss the chance of dropping in.

Mrs. Longstaff was a week-end visitor to Calgary returning on Tuesday.

Mrs. Claypool has left for Muncie Indiana where she is to spend the winter.

The Chautauqua performances

wound up with an impromptu dance which also served as a farewell party to Mr. and Mrs. A. Calder who have now left for Calgary where they intend to spend the rest for the winter.

Mr. W. Robertson is now a resident in town having rented the town residence of Mr. Herman Wulff for the winter.

Mrs. Page left to visit her father who is sick at Delburne. We hope on her return to here he is getting on nicely.

"Oh, darling," he murmured, "I love you so. Please say you'll

be mine. I'm not rich like R. B. Bennett, and I haven't a car or a mansion or a well-stocked cellar like Bobby Hambly; but darling, I love you better than life itself. I cannot live without you."

Two soft, snowy-white arms stole around his neck and two ruby lips whispered in his ear: "And I love you too, darling; but where is this man Hambly?"

The critic wrote: The play ended, happily. What a whale of a difference a little comma makes.

Salesman For Face Cream Learns a Good Lesson

Mr. Vandivier, New York, writes: "I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. Finally I decided I would have to get at the cause—constipation. I was amazed to find that within a few days after taking your vegetable laxative pills for constipation my skin took on a new healthy look."

WORLD HAPPENINGS BRIEFLY TOLD

An extradition treaty between the United States and Poland has been signed at Warsaw after several years of negotiations.

Canada's trade with United States for the twelve months period ending October 31, was \$1,186,000,000 and exceeded the entire trade with the British Empire by \$427,000,000.

Mrs. Frances Wilson Grayson announced on her return from Europe that a third attempt to fly across the Atlantic ocean in the amphibian plane "Dawn" probably will be made during the winter months.

Sir Harry Lauder has received the freedom of his native city. The ceremony established a precedent, since he was the first professed comedian enrolled on the honor roll of Scotland's capital.

A train of 31 cars carried the first shipment of grain to the Halifax elevator this year, the shipment containing 61,000 bushels of rye, said to be part of one million bushels to be handled at that port.

George Sawyer, a member of the St. Noras Lake hunting party of Haliburton, Ont., was fortunate in securing a freak of the deer family in the form of a white buck. It was exceptionally large, weighing over 300 pounds.

The post of gold commissioner in the Yukon territory, which is now vacant will, it is understood, likely be filled by a promotion from within the civil service. The Yukon is administered by the department of the Interior at a cost of \$180,000 a year.

In the last year, 147 Catholic priests have been executed in Mexico, W. F. Montavon, of the National Catholic Welfare Conference of Washington, told members of the Monday Club, an organization of social workers in New York.

More than half a million aliens were admitted to the United States during the 1927 fiscal year, and the number was considerably greater than during the previous year. The figures were 538,001 admissions in 1927, and 426,106 admissions in 1926.

Ronald Martland, son of John Martland, Edmonton's city architect, has been selected as Alberta's Rhodes scholar for 1928, and will proceed to Oxford next autumn. This is the 13th selection made at the University of Alberta.

Miller's Worm Powders will not only expel worms from the system, but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

High and low tides may be predicted two years in advance for any port in the world by a recent calculation invention, consisting of 15,000 parts.

Rheumatic Pains

Gentle massage with Minard's will work out stiffness and drive away pain.

New Ruling For Settlers

Will Receive Medical Certificates Before Leaving For Canada

Interviewed in London on the recently announced intention of the Canadian Government to establish in Great Britain, Canadian medical officers for examination of intending settlers for the Dominion, Sir George McLaren Brown, European general manager, Canadian Pacific Railway, said that the new plan is being put into effect with the object of averting possible expense and waste of time to the migrant and of avoiding the possibility of rejection on arrival in Canada through failure to comply with Canadian medical regulations.

Under the new plan all who desire to settle in Canada will be medically examined free of charge before leaving their homes. This examination will be final and there will be no further examination to undergo on arrival at a Canadian port. It will also avert possibility of intending migrants giving up their positions or selling their business until they have passed the Canadian doctor.

New Distress Call For Radio Telephony

"May Day" Is Equivalent To SOS In Telegraphy

A distress call for use in radio telephony and to be the exact equivalent of the Universal SOS in telegraphy has been advised by the International Radio Conference here and has been incorporated in the new international wireless convention.

The new call for help is "May Day" to be spoken through the broadcasting apparatus. This would be followed immediately as in the case of a SOS by details as to the location of the origin of the distress call.

"May Day" is the phonetic spelling of the French word "m'aider," meaning "help me."

Winnipeg Newspaper Union

A Smartly Simple Frock

Extremely smart is the modish frock shown here, having a group of tucks at the back of the neck, a convertible collar, dart-fitted sleeves, or long sleeves with flared cuffs, and a flared section at the front of the skirt. No. 1692 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 38 requires 3 1/2 yards 39-inch, or 3 yards 54-inch material. Price 20 cents the pattern.

The garments illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments desirable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

Teaching Hatred Of Britain

Reds Spending Unlimited Funds In China Says General Sutton

"The whole of Mongolia is now in the hands of the Bolsheviks and they are sending hundreds of agents supplied with unlimited funds into Southern China with the idea of raising hatred against Great Britain," General F. A. Sutton, picturesque soldier of fortune and promoter, told the Ottawa branch of the Engineering Institute of Canada.

The man, who for six years was military adviser to Marshal Chang Tso-Lin, head of the Peking government, declared that he had seen orders from the Moscow government, "directly advocating wholesale murder to stir up anti-British feeling."

According to General Sutton, 99 per cent. of the people of China were hopelessly poverty stricken. The urgent necessity of getting something to eat was the main consideration of the bulk of the population.

General Sutton thought the main source of trouble in China as it affected Great Britain was in Britain's lack of a strong policy. To a great degree the fact that practically the whole of Southern China was now pure Bolshevik came as a result of this policy, he declared.

Question Of Naval Limitation Shelved

Further Conference May Be Called Within Two Years

No negotiations in connection with a further conference on the question of naval limitation have been begun nor are any contemplated for the immediate future, the Canadian Press learns. However, there is a definite feeling in British diplomatic circles that another conference, say in 1929, might produce valuable results inasmuch as it might considerably influence the cruiser program which otherwise would be in the process of being carried out two years later, when the Washington conference agreement will be due for review.

The decision not to proceed with two of the three cruisers which were to have been laid down this fiscal year is regarded as a gesture of the British Government to preserve a lively interest in the proposals for armament reduction.

Minard's Liniment for Neuralgia.

Laundry Run By Peeress

Solicits Patronage From Society People Residing In Mayfair

Bedside telephones are ringing early these Monday mornings in Mayfair and a woman's voice says firmly, "My dear, I want your washing." The voice belongs to Lady Ossulston, a peeress and a member of West End society, who has started a laundry.

She takes this method of coaxing her friends to sample her venture, assuring them that her laundry is one place where buckles won't come off white waistcoats and where there will be no laundry marks splotching handkerchiefs. Her husband, who is heir to the earldom of Tankerville, is London's pioneer aerial taxicab driver.

The Arctic tern, which flies from the Arctic zone to the Antarctic in its annual migration, covers a greater district than any other bird.

SUNDAY SCHOOL LESSON

DECEMBER 11

ISAIAH COUNSELS RULERS

Golden Text: "Thou wilt keep him in perfect peace, whose mind is stayed on Thee; because he trusteth in Thee."—Isaiah 26:3.

Lesson: Isaiah, Chapters 7, 31, 36 and 37.

Devotional Reading: Psalm 21: 1-7.

Explanations and Comments

I. King Hezekiah Appeals To Isaiah To Pray To Jehovah For Deliverance From Sennacherib, verses 1-4.
II. The Prophet's Answer, verses 5-7.—"Thus shall ye say to your master," Isaiah made answer to the messengers from King Hezekiah, "Thus saith Jehovah, Be not afraid of the words that thou hast heard, where-with the servants of the King of Assyria have blasphemed me." Read the words in the preceding chapter of Isaiah, "Behold," continued Isaiah, "I will put a spirit in him, and he shall hear tidings, and shall return unto his own land, and I will cause him to fall there by the sword in his own land." The "spirit" was that of alarm. What the "tidings" were is uncertain. To quote G. W. Blaise: "If chapters 36 and 37 are a unity, 'tidings' must refer to the news of the approach of Tirhakah, verse 3. If verses 1-7 here are independent of verses 8-36, the rumor probably relates to the tidings from home of a rebellion in Babylon, where, after expelling Merodach-baladan in 703, he had set up a vassal king, who shortly afterwards revolted, and against whom he directed a campaign in 709. In the combination of the narratives mention of the fulfillment of the prediction about the rumor may have been lost; but the return of Sennacherib to his own land is described in verses 37, 38, which form the sequel of this account."

Isaiah's fervid faith in Zion's inviolability does not blind him to the openness of Judah's northern entrance; it is in one of his passages of warmest exaltation about Zion (10:32) that he describes the easy advance of the Assyrians to her walls. He and other prophets frequently recognized how swiftly the military powers will overrun Judah; and when they except Jerusalem from the consequences, it is not because of her national strength, but because of her faith in the direct intervention of God Himself. So at last it happened: In the great crisis of her history, the invasion by Sennacherib, Judah was saved, as England was saved from the Armada, neither by the strength of her bulwarks, for they had been burst, nor by the valor of her men, for the heart had gone from them, but because, apart from human help, God Himself crushed her insolent foes in the moment of their triumph."—George Adam Smith.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callosity comes out without injury to the flesh.

Hopes League Can Avert War

Former French Delegate Says 1935 Will Be Crucial Year

The United States will not be on the same side as Great Britain in another European war, Henri de Jouvenel, former French delegate to the League of Nations, predicted in a letter read at the International War Danger Conference at London.

M. de Jouvenel, who recently resigned his League post as a protest against the policies pursued at Geneva, was to have addressed the conference, but sent a message which was read instead.

The French statesman pointed to the holding up of the recent naval conference and said:

"Naval rivalry brings in its train concurrently with the growth of land armaments, rivalry of great states which are potential foes."

He predicted 1935 as a crucial year, until which the peace structure would hold good, but expressed the hope that by that time the League of Nations would have gained the authority necessary to prevent the recurrence of war.

Is Member Of Crew

Lady Cobham is accompanying her husband on his present important flight, not as a joyrider, but as a member of the crew, her work being to act as secretary to Sir Alan, to serve as cook and to be ready to give first aid in case of accident. The plane is equipped with cooking apparatus which can be used during flights and this Lady Cobham will superintend.

Growing Trees From Seed

The Land Department of British Columbia has leased a plot near Victoria city where forest trees will be grown from seeds and planted artificially to renew timber supplies for a future generation. The tiny trees will then be planted in various government timber reserves within the province.

Cold Relieved or Money Back

Everywhere men, women and children are finding instant relief from Coughs and Colds of all kinds by taking Buckley's Mixture. Everywhere druggists are selling "Buckley's" under positive guarantee. The first dose proves how different it is—and there are 40 doses in a 75-cent bottle! Never be without this proven conqueror of colds.

W. K. Buckley, Limited,
142 Mutual St., Toronto 2

Scheme Is Proving Success

Socialistic Rule Has Passed Experimental Stage In Vienna

The city of Vienna has just entered upon its tenth year under Socialist rule. It is the only great city of millions of inhabitants which has been governed by a purely Socialist majority for so long a time—the only place where Socialist experiments have had a chance to be conducted upon so grandiose a scale and thereby develop beyond the experimental stage into what, from certain definite points of view, must be regarded as success.

Probably no city outside of Russia has had more hostile criticism than Vienna during the past decade. It has been denounced as Bolshevist; as a city being ruined by its rulers. Yet today students of municipal government come from all parts of the world to the Vienna town hall admittedly to learn.

The first striking fact is that Red Vienna is as far removed from Red Russia as the poles. In Vienna, in fact, nothing is forbidden in the social order, provided one is able to pay. It all depends upon that. On the other hand, the doctrine of Kary Seitz is definite—minimum happiness is due to every one and for that every one shall pay. Therefore, one may retain 40 servants if he deems that number necessary—and pay a tax sufficient to maintain an entire ward in the children's hospital for a year. But upon the theory that human service is necessary, servant No. 1 is not considered a taxable luxury.

One may own one automobile or twenty, providing one pays \$20 per horsepower annually. One may attend cabarets all night, provided he is willing to pay the music tax. French champagne may be nibbled to the palate's desire provided the purse can stand the strain of the high tax that goes to the municipal building fund. One may ride a horse for pleasure and pay an annual tax of \$50, or may keep a horse for commerce and pay a tax of only \$5, or may own a horse to till the soil and pay no taxes whatever.

Undoubtedly in some ways—perhaps in many ways—the new regime is still groping with difficulty. But, as the city fathers maintain, it is only nine years since the revolution and only seven years since the inhabitants have been able to get good square meals, therefore more time is needed to solve all problems.

Watches and clocks made in this country in the past year had a value of nearly \$2,000,000, the production breaking all records.

TORTURED FOR SIX MONTHS

Maritime Man Completely
Relieved of Kidney
Trouble by Gin
Pills

When kidneys are inflamed or clogged life becomes a misery, as Mr. W. McArthur of St. John, N.B., realized. Fortunately, he also discovered Gin Pills, and gratefully wrote:

"I suffered for six months with kidney trouble. Doctors said I would have to have an operation before I could go back to my heavy work in the machine shops. I was advised to try Gin Pills by the druggist. After taking three boxes I had no more trouble."

Mr. McArthur is not the first person saved from the surgeon's knife by Gin Pills. For years, Gin Pills have relieved acute kidney conditions.

Never neglect backache, headache, brick dust in urine, swollen joints, dizziness, spots before the eyes, painful, scanty or too frequent urination, Nature's warning of kidney derangement. Play safe. Take Gin Pills. 50c a box at all druggists. National Drug & Chemical Co. of Canada, Limited, Toronto, Ontario.

160

SOVIET RUSSIA PROPOSES THAT NATIONS DISARM

Geneva.—Soviet Russia has challenged the entire world to disarm. The Russian delegation to the disarmament commission of the League of Nations offered to destroy her land, sea and air forces, provided other nations would do the same.

The stupendous proposal left the other delegates bewildered and gasping for an answer, but with the impression that Russia had woven the peace fabric of Europe. However, the general impression, except possibly among the Russians, is that total disarmament is an idealistic dream for the present at least. Nevertheless, there is everywhere a disposition to give the Soviet leaders full credit for their readiness to wipe out armaments.

That the Russians themselves realize their plan to lay down all arms and make their manufacture impracticable is too idealistic for the present, at least, was shown in the opinion of many by the fact that they voiced their willingness to negotiate in a piecemeal form for the reduction of armament if their radical project proved too revolutionary, and that they did not insist upon immediate consideration in detail of their sweeping programme. Such consideration was adjourned until the next session of the commission early in 1928.

Furthermore, although contending that complete disarmament is the best guarantee of security, the Russians, in a spirit of conciliation agreed to send an observer to the special committee on security. It will tackle the problem of how best to increase guarantees of security in order that the nations of the world may be more willing to cut down armaments when the international conference is convened, probably some time next year.

Cost Of Canada's Army

Expenditures For Year Total \$10,402,651 According To Report

Ottawa.—Militia services in Canada during the year 1926-27 necessitated expenditures totalling \$10,402,651 according to the annual report of the Department of National Defence. This figure does not include \$809,154 for general air services. In the year 1917-18 the grand total of militia service expenditures was \$329,744,279 and for the next two years the expenditures were in excess of \$300,000,000.

Flying operations by the Royal Canadian Air Force during the year showed a total of 5,229 hours of flying time, covering serviced flying, forest protection, aerial photography and fishery protection.

The active militia strength on March 31, 1927, was placed at 3,189 ranks; other than commissioned officers.

Law Serves Its Purpose

Sacramento.—The new state law requiring a three-day notice before a marriage license can be issued has reduced the number of marriages in California by 20 per cent. During the first month it was in effect, the regulation brought a decrease of 900, indicating that many elopements had been frustrated.

Reproduce Royal Christmas Cards

London.—Reproductions of the Christmas cards prepared for the Royal Households by a London firm are again to be available this year to the members of the public by permission of the King and Queen, the Prince of Wales, Princess Mary and the Duke and Duchess of York.

Jewelry Found In Cells

Barrie, Ont.—Stolen jewelry has been located hidden in the cells at the county jail occupied by Fred Fryer and Dennis Berkin, who were sentenced to two years for the theft of several rings. The men had refused to tell the whereabouts of the missing rings.

Must Pay License Fee

Meose Jaw.—Dr. H. Standforth Claunch, San Francisco, will have to pay a transient traders' license fee according to a decision reached by city council here. The doctor is giving a series of lectures in this city on matters pertaining to health.

W. N. H. 1710

Commuter Lost Fight Against New Ruling

Was Advised To Submit To Border Immigration Law

Buffalo, N.Y.—The first attempt of an alien to fight the border immigration ruling was lost when Judge Hazel, in district court, dismissed an application for a temporary injunction to restrain immigration officers from enforcing the ruling.

The injunction was sought on behalf of James Kemp, of Niagara Falls, Ontario, who is owner of a business establishment in Niagara Falls, N.Y.

Judge Hazel, commenting on the action, advised Kemp to submit to arrest for illegal entry across the Niagara river and then to apply for a writ of habeas corpus in order that his action may be brought before the district court.

The new immigration ruling which became effective December 1, provides among other things, that Canadian nationals, who commute to this country, must have visas and pay a head tax of \$25.

Exhibition Dates Set

Announcement Made At Annual Session Of International Association

Chicago.—The Canadian National Exhibition will be held at Toronto, August 25 to September 8, next year, according to an announcement made by the International Association of Fairs and Exhibitions in annual session here.

Other dates for Canadian exhibitions decided upon for associations affiliated with the international association were announced as follows:

Calgary exhibition and stampede, Calgary, July 9 to 14.

Central Canada exhibition (Ottawa), August 21 to 26.

Edmonton exhibition, Edmonton, July 16 to 21.

British Columbia provincial exhibition, New Westminster, B.C., September 3 to 8.

Saskatchewan's provincial exhibition, Regina, July 30 to August 4.

Montreal Merchants

Outwit Burglars

Leave No Money In Store After Closing Hours

Montreal.—Thieves operating in Montreal have, for the past few months, apparently acquired a penchant towards repeating their exploits in the same establishments. But the harassed shopkeepers have arranged in their own way means of making the work of the marauders as unremunerative as possible.

Over last week-end thieves entered a branch of a chain grocery company and carried the safe away. That was their fourth visit in two months. The management, however, had one of the employees carry the money home, so that the strong-armed men received nothing but a lot of trouble for their pains. On the previous three visits the robbers secured \$500 and three safes.

Changes In British Cabinet Inevitable

Rumor Is Causing Much Speculating By London Newspapers

London.—A cabinet shuffle is inevitable early in the coming year and already newspapers are speculating on the changes. It appears probable that Cunliffe Lister, Mr. Bridgeman, first lord of the Admiralty, and Col. Ashley will be elevated to the House of Lords, and that their position in the cabinet will be filled by younger men.

Progressive members of the Conservative party are making demands for better representation in the government, and are very much dissatisfied with the present administration. This feeling is resulting in considerable disunity within the party, which must be unified before the next election looms in sight.

Has Approved Agreement

Ottawa.—The Government has approved by order-in-council the agreement between the Canadian National Railways and the City of Vancouver, announced Hon. C. A. Dunning, Minister of Railways and Canals. One of the provisions in the agreement calls for the building of a new hotel in Vancouver at a future date.

Refused Decorations

COL. T. E. LAWRENCE

who lived with the Arabs with a price on his head, organized them to drive the Turks out of Syria during the war and made Emir Faisal king of Iraq, and then refused the decorations offered to him by King George according to recent disclosures. He is said to feel that the Arabs didn't get a square deal because they fought under him with the understanding that they would be allowed to keep Damascus and Syria after the war.

Casualties Heavy In Ukraine Revolution

Has Cost 5,000 Lives In Three Months Says Report

New York.—Suppression of a revolt in the Ukraine at a cost of 5,000 lives during three months of bitter fighting is reported in a special copyrighted despatch from Kishineff, Bessarabia, to the New York Times.

The despatch telling of massacres and street clashes in towns along the Dniester, which forms the Russian-Rumanian boundary line, confirms in large measure recent despatches to the Associated Press from Bucharest citing an account of fighting in the Ukraine reported by the Rumanian newspaper Dimineata.

Soviet reinforcements, which have arrived in the Ukraine in the past two weeks turned the tide of the revolutionary movement and after a series of clashes in various towns the revolt was crushed out in a bloody disaster for the revolutionaries.

Soviet officials have made denial of any extensive revolt in the Ukraine, specifically denying any fighting at Kamenez-Podolsk, but the sound of prolonged firing beyond the Ukrainian hills can be heard daily from the Rumanian side of the frontier, the despatch says.

A Ten Thousand Dollar Two-Year Old

The international aspect of the Royal Winter Fair at Toronto was emphasized strongly this year by the exhibition of a large shipment of champion stallions from England, Scotland, France and Belgium. The horses, including Clydesdales, Percherons, Suffolks and Belgians, were brought to Canada in October by W. J. McCallum, of Brampton, Ontario, and Regina, Sask. The shipment arrived on board the Canadian Pacific freighters Holingbroke and Bosworth, and represented what is considered the finest assignment of horses ever to cross the Atlantic.

A notable stallion with the group is "Lord Willington," photographed above, a Clydesdale champion many times over and considered one of the

Hazing Barred From Agricultural College

Hon. J. S. Martin Gives Ruling Affecting Guelph School

Toronto.—Hazing or initiation practices at the Ontario Agricultural College, Guelph, have been banned by Hon. J. S. Martin, Minister of Agriculture.

The minister's action was prompted by the recent hazing of Edward Beddoe, young English student at the institution who was imprisoned in a pig crate and "auctioned" off in front of a crowd in the streets of the city a short time ago.

Mr. Martin takes the ground that hazing is, in effect, little short of mob law in a mild form and states that students who participate in any future affairs of this kind may be immediately expelled from the college.

Serious Floods Near London

People In Low Lying Country Forced To Leave Homes

London.—Serious floods in many places, especially in the low country to the West of London, followed a heavy 24-hour rainfall which accompanied a black fog over the city. The rainfall exceeded half of the average for the whole of November.

The little river Brent burst its banks, flooding scores of houses near Greenford. Police entered the district quickly to awaken the inhabitants, who had to leave their beds hastily to save what they could.

Miles of the district were under water, and the roads were impassable. The local electric plants were flooded, cutting off light and increasing the difficulties of the area.

Canadian Doctors In London

Will Examine Immigrants From England Before They Sail

London.—Twenty doctors from Canada have arrived here for the inspection of potential migrants from this side of the Atlantic to the Dominion under the pre-embarkation medical examination scheme which has been placed in operation by the Canadian department of public health.

It is hoped that by testing the fitness of prospective immigrants before they sail, the possibility of their rejection on arrival in Canada will be practically eliminated.

World's Chess Champion

Buenos Aires.—Alexander Alekhine, Russian chess-master, won the world's chess championship when Jose R. Capablanca, the title-holder since 1921, resigned the thirty-fourth game of the series without resuming play, adjourned after 81 moves. The score was six to three victories. The 25 drawn games did not count.

OATS TROPHY AGAIN WON BY HERMAN TRELLE

Chicago.—Canada retained the oats sweepstakes for the best oats grown on the North American continent through Herman Trelle, Wembley, Alberta, at the International Grain and Hay Show here, L. E. Patterson, Victor, Montana, taking the reserve championship.

Mr. Trelle kept the oat crown which he won in 1926 with a fine sample of Victory oats weighing 49.6 pounds to the bushel, United States measure.

Canada has won the oats championship six times, and Montana twelve. By winning today the Canadian exhibitor stopped Mr. Patterson from taking the trophy as his own property for a third win. Next year Mr. Trelle will have an opportunity of lifting the trophy.

All the winning seed grain samples are placed in a gold painted glass case under lock and key in gold painted boxes. The blue ribbons denoting championship taken by the exhibit are laid on top of the grain. Above the glass is a big map with golden crowns showing that the field peas championship went to Saskatchewan and the oats sweepstakes to Alberta.

George Avery, Kelso, the only Saskatchewan entry in early oats, was the first Canadian exhibitor, taking tenth prize, L. E. Peterson, Victor, Montana, won and Maurice Larcombe, Birtle, Man., was eleventh and Samuel Larcombe, Birtle, Man., fourteenth, uel Larcombe, Birtle, Man., fourteenth.

Norwegian Scientists Going To Antarctic

Will Make Study Of Continent Near South Pole

London.—A party of Norwegian scientists and explorers have left Norway for Cape Town, whence they will start on board the Antarctic steamer Norvegia to explore the South Antarctic continent. They will explore from Enderby Land round the continent to the 120th degree West, following the route of the Bellingshausen expedition of 1821.

Afterwards they will go to the South Shetland Islands to study the flora and fauna. The scientific leader of the expedition will be Professor Hottelidahl and the captain of the Norvegia will be Captain Hornvedt.

Several naturalists will be included in the company.

Would Abandon His Title

Japanese Prince Holds Himself Responsible For Bank Failure

Tokio.—Prince Iwao Matsukata, holding himself responsible for the failure of the fifteenth bank, called the Peers Bank, because its stockholders and directors numbered most of the Japanese peerage, has requested permission to abandon the title.

The Prince, who was managing director of the bank, has decided to sell his remaining property, donating the proceeds to the settlement of the bank's affairs. The Prince, who was a multimillionaire before the bank's failure last April, is now living in a small house on the outskirts of Tokio.

Vancouver Is Recommended

Vancouver.—Officials of the Imperial Aeronautical Association of Japan have been cabled by Y. Miawa, air attache of the Japanese embassy at Washington, recommending Vancouver as the terminus of the Japan Pacific flight which will be attempted next year.

Shipping Milk To Orient

Vallejo, Cal.—Americans living in the Orient soon will have fresh milk from contented cows. A dairy company here is shipping several hundred gallons of milk to Shanghai and Singapore, using the same methods of refrigeration employed by fruit exporters.

Large Orange Shipment

Vancouver.—Importation of Japanese oranges through Vancouver reached a new high mark when three steamers arrived from the Orient recently carrying a total of 500,000 boxes for distribution in British Columbia and every other province in the Dominion.

Reward Wheat Shows Highest Average Protein Content of Any Western Prairie Grown Variety

Reward wheat shows the highest average protein content of any wheat grown on the Canadian prairies, according to chemical tests just completed at Ottawa.

Reward wheat, centre of controversy at the Royal Winter Fair, stands higher than Kota, Ruby, Marquis, Garnet and Klitchener, according to these tests.

Samples of Reward wheat from experimental farms and stations in Manitoba, Saskatchewan and Alberta have shown an average protein content of 17.52 per cent., regarded as remarkably high for flour-making qualities. Other wheat varieties, tested on a similar scale, contained protein of from 14.51 per cent. to 17.29 per cent.

At the instance of the Dominion chemist an analysis of a series of wheats grown on 18 experimental farms and stations from Prince Edward Island to British Columbia has been made during the past year and a copy of the Dominion chemist's report has just been received in Regina.

The series consisted of 165 samples, comprising 45 varieties, all taken from the crop of the same year.

Chief objects of this study were to ascertain varietal differences, chiefly in protein content, under the same environmental conditions, and also to find out the influence of different environmental conditions on the character of the grain of the same variety.

Marquis and Garnet varieties, the most commonly sown in the West at present, came in for much attention, Reward being still regarded by Ottawa authorities as an uncompleted experiment. The results of these tests are not held conclusive by the Dominion chemist, who reports that they should be supplemented by those of a future series before their detailed consideration with a view to definite conclusions, would be justified.

Reward wheat showed a great consistency in protein content in samples taken in Manitoba and Saskatchewan. It ranked highest among the 20 samples taken at Brandon, first among 13 samples from Scott and first of 14 samples from Indian Head. It was a close second at Beaverlodge and second too, at Morden. At Rosthern, Swift Current and Lethbridge, it ranked fourth.

A report from the Minnesota State Experimental Flour Mill at Minneapolis, on Marquis and Garnet wheats grown at Scott, Sask., shows these grains to have rich flour-making qualities. These samples, were considered almost alike and both were classed as "unquestionably strong" with excellent bread-making properties. The analysis of the wheat showed both to contain less than 15 per cent. protein. Reward in early tests, has been shown to have much more than that.

Storms Caused By Lack Of Forest

Trees Act As Lightning Rods Says French Expert Of Wireless

Trees are lightning rods and the increasingly bad weather is due to the destruction of forests, says Edouard Branley, France's grand old man of wireless.

"If there are no longer seasons," he says, "deforestation is the principal, if indeed, alas, not the sole cause."

"Trees on the heights with their pointed tips toward heaven and their roots deep in the damp ground, are nothing less than so many lightning rods, constantly discharging into the earth the atmospheric electricity and thereby preventing its accumulation in the clouds, an accumulation that would cause terrible storms. In wooded districts there was calm, but now that the woods are being cut down there are constant hard storms."

Should Not Beat Birds

Brig Gen. C. H. Brooke, of London, Conservative member of Parliament and sportsman, recently warned that he could beat carrier pigeons in a cross country race. He travelled 175 miles and turned loose 400 birds, then sped home by motor car and fast train. The whole flock had arrived an hour before the speeding general.

A good neighbor is one who lacks interest in affairs that are none of his business.

W. H. H. 1739

Age Of Steers To Feed

Two Year Old Steers Make the Greatest Gains

In selecting steers for feeding work, the age of the animals is an important consideration. All things considered the average feeder would be well advised to feed two-year-olds, in the opinion of the authors of an Experimental Farms bulletin on the "Winter Feeding of Beef Cattle in Ontario." The bulletin gives an account of experiments in feeding steers of different ages. Over a six years period the two-year-olds made the greatest gains, but the yearlings were a close second and the three-year-olds were not far behind. The younger steers had the advantage in the cost per pound gain, as the cost increases with age. The lower feeding cost of the younger steers is due to the fact that he is growing and putting on fat at the same time while the three-year-old makes his gains by putting on fat alone. The younger steer, however, needs a somewhat more nutritious ration than the older one, the latter making the best use of coarse roughage.

A Smart Tunic Blouse and Skirt

The tunic blouse is quite new and smart this season, and the one pictured here, having a square neck and loose sleeves, is exceedingly chic. Bands of ribbon, with the addition of buttons or buckles, form an attractive trimming, and a belt fastens in front. No. 1682 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2½ yards 39-inch, or 1¾ yards 54-inch material, and 4 yards 2½-inch ribbon. Price 20 cents the pattern.

The skirt has six plaits at the left side, and is joined to a dart-fitted bodice top having straps over the shoulders. No. 1322 is in sizes 34, 36, 38, 40 and 42 inches bust. Any size requires 1¾ yards 39 or 54-inch material, and 1 yard 36-inch lining for the bodice top. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

London will have this year 14 new moving picture theatres of seating capacity of 2,500 or more, the total cost being approximately \$15,000,000.

If all that is being said is true in regard to aviation, we shall be very much up in the air next year.

Danish Scientist Makes Interesting Discovery

Found In Brussels Head Of Famous Statue Owned By Denmark

An interesting piece of archaeological surgery, which gives hope that the Venus de Milo may some time be supplied with arms and Winged Victory with a head, has been accomplished here through the keenness of observation of the Danish scientist, M. Blinkenberg.

Mr. Blinkenberg, who made a long study of ancient Greek sculpture, particularly various statues of Aphrodite, visited the Museum Clinkantenaire at Brussels recently. In studying the famous torso of the Venus of Cnidus, one of the most precious relics in the museum he noticed that the head seemed to have been broken off in precisely the same manner as the head of a Venus he had studied in Copenhagen.

Returning to the Danish capital he had a plaster cast made of the head and shipped to Brussels, where it was found that the head fitted exactly in the decapitated torso. Arrangements have been concluded for an exchange of objects with the Copenhagen museum so that the Venus of Cnidus, with the head restored, may become one of the most beautiful statues of Venus extant.

Roughage Ground Or Fed Whole

Experiments Would Indicate That Grinding Roughage Does Not Improve It

The results of an investigation into the advantages and economy of grinding roughages for dairy cows, conducted at the Central Experimental Farm, show that the grinding of the rough feed did not add materially, if at all, to its feeding value. The details of the investigation are given in the latest report of the Dominion Animal Husbandman. Among other things it was demonstrated that cut corn fodder is not of as high value for milk production as corn silage. When corn fodder and mixed hay were both cut and ground and fed in comparison with silage and the same mixed hay, not cut or ground, the latter ration proved to be slightly the more efficient for milk production. These results indicate that grinding roughage does not improve it. On the other hand, the extra labor of cutting and grinding adds materially to the cost. It can safely be said, therefore, that under normal conditions, it would not be economical to grind rough feed, at least for dairy cows, particularly since there is no class of stock better adapted to grinding their own feed.

Japanese Children Send Gifts

As a Christmas gift to the children of the United States from 5,000,000 Japanese girls, fifty-seven dolls have been made by the most expert craftsmen in Japan. They will be a reciprocal remembrance for the 13,000 "friendship dolls" sent by children in the United States to the Japanese doll festival last March. Extensive wardrobes of silken kimono and robe, with trunks and appropriate furniture have been supplied for each doll.

The more a man gets the more he wants—unless a police judge is dealing it out.

A hypocrite is a man who pretends to be what he can't—with the accent on the can't.

Winners of Boys' and Girls' Swine Club Competitions

Winners of the Manitoba and Saskatchewan championships of the Boys' and Girls' Swine Club competitions along the lines of the Canadian National Railways, who attended the Royal Exhibition at Toronto as the guests of the Railway. Makes Plea For Eskimo, Who Are Needed To Develop The Great Northern Areas of Canada

Reasons Are Numerous

Why City Men Move To Farms and Farmers To City

An attempt by the Department of Agriculture to find out why the farm boy longs for the city and the city dweller longs for the farm has resulted in the disclosures of a wide variety of reasons.

Opportunity for making a better living on the farm than in the city was found to be the principal reason for movement from city to farm, which, the department survey said, was composed largely of former farmers who had been disillusioned by city life.

The high cost of living in cities drove some persons to the farm, and others were induced to take up farming for the satisfaction of an independent life.

Some farmers move to town because they cannot make farming pay, or are drawn to the city by the lure of a larger income. Others move because of better school facilities for their children; others still because of being physically unable to continue farming and a small number because of financial inability to retire.

A steady weeding out of older people on the farm who are replaced in part at least by men and women in earlier life, was found by the survey. Although the total farm population is reduced in numbers the report stated, the result is the development of a more-vigorous and efficient agriculture. A detriment, however, is that those who retire take with them to the city a volume of financial wealth and experience, the loss of which retards rural institutional improvements.

Wild Flowers Of The Rockies

Abundant Flora Found Amid the Higher Altitudes

One of the great charms in the national parks in the Canadian Rockies is the variety and beauty of the wild flowers. At first thought one would perhaps not expect to find an abundant and interesting flora amid the higher altitudes, but, strange as it may seem, the wildflower gardens which bloom above the clouds in the upper regions are among the most beautiful in the world. Over five hundred varieties have been identified by botanists, and their exquisite color, fragrance, and delicate loveliness add the last touch to the charm of that wonderful region.

Arctic Party "Frozen In"

A wireless message from the MacMillan expedition in the Arctic regions was picked up at Magnolia, by George Warren, amateur radio operator, 23 years old, he reported. It read: "We are within a few degrees of the Pole and all is well. We are frozen in and will not be out until next Spring. At the present time the Arctic is under a mantle of the six months night."

In Austria all women in government employ must be addressed as "Frau" regardless of age and whether married or unmarried.

Action by the Dominion Government to preserve Canada's dwindling Eskimo population was urged by Capt. H. T. Munn, F.R.G.S., pioneer explorer of the Northwest, in an address before the Canadian Club at the Windsor Hotel, Montreal.

Canada's Eskimo population is now 5,500, as compared with between 10,000 and 15,000 fifty years ago, said Capt. Munn. To prevent further dwindling in numbers he recommended that Canada adopt successful measures used by the United States in Alaska and by Denmark in Greenland. That herds of reindeer should be imported into the Canadian Northwest the territory east of the Mackenzie River to the Hudson's Bay and Davis Straits, was the first recommendation of the speaker. He cited the example of Alaska. He said that 32 years ago 1,280 reindeer had been imported into Alaska, and from that number had sprung 675,000, the number of reindeer now in Alaska. With the growth of the reindeer stock had come prosperity to the Eskimos of Alaska, who now numbered 12,000.

Secondly, Capt. Munn would have Canada follow the example of Denmark in Greenland and prevent exploitation by white men in the far North. Denmark found the Eskimos in Greenland in 1860 to be "dirty, debauched and dwindling," declared Capt. Munn. The Danes ousted white traders from the territory, and formed a government trading company on behalf of the Eskimos which would accomplish the same purpose without exploiting the natives. The 1920 census showed the Eskimos in Greenland had increased to over 15,000, and were "cleanly, contented and prosperous," said Capt. Munn, in advocating this policy for Canada.

It is to Canada's advantage to preserve its Eskimo population, in the opinion of the speaker. He called it bad morals and bad business to neglect them. Great areas in the northwest awaited development, and this could not be done to the advantage of Canada without the aid of the Eskimo.

It was pointed out that one-third of the total area of Canada lies in the Northwest Territories, that section comprising 1,300,000 miles of the Dominion's 3,800,000 miles. This was the natural habitat and home of the Eskimo. Its commercial future seemed assured, as it offered minerals, furs, and a territory splendidly adaptable for reindeer development.

As samples of exploitation of the territory, Capt. Munn cited the gradual extermination of the caribou and wild life. He called it "the ruthless extermination of the caribou," which took away the source of the best clothing for the northern temperatures.

Regarding wild life exploitation, he said that in the last four years over five million dollars' worth of white fox had been taken out of the Northwest Territories. This represented 120,000 animals. If the rate kept up foxes would become scarce, except in remote parts of the country.

Stories were told of the hospitality and simplicity of the Eskimos, through which Capt. Munn found another avenue of expressing his favorable attitude to the Eskimo and his conviction that they should not be neglected by Canada, but assisted in every way.

Brooms have been replaced by vacuum cleaners in the barracks of the French armies.

The Channel Swimmer—So you are giving up? Yes, for today. I will continue to-morrow.—Journal Amusant, Paris.

LESSON No. 19

Question: Why is emulsified cod-liver oil so wonderful a food- tonic for young girls and women?

Answer: Because it abounds in nourishing factors that are particularly beneficial to people prone to anemia and other conditions due to malnutrition.

Keep your system vitamin-nourished—take

SCOTT'S EMULSION

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XII—Continued.

There was a flat stone by the river to which she often took her English book to read. For she loved the sound of the flowing water. It brought her back to the elemental things of life, and told her again the stories she had heard when she was a child—stories of man's long struggle with the wilderness, flood, famine and cold—and in its blitheest murmurings Helmi could discern a warning note. It was trying to tell her that winter was coming, pitiless and cold, and that now was the time, when the grass was green and the water running, to build protection from the cold, and lay up stores against that long, white, desolate time. And although the river spoke only of the winter, Helmi knew it had a deeper meaning—and no matter how hard she studied her English book she could not altogether quell the voice of the years.

The velvety breezes of summer which went by her—some cool and fragrant with the wolf willow which grew thick around the edge of the saucer; some hot, like a blast from an oven—brought the same story and the same urge, filling her with a discontent and a vague restlessness that was new and disturbing. When she could bear it no longer Helmi always was able to drown the voices by a new orgy of cleaning at the boarding-house. She had never heard of sublimation, but she knew that something mysterious and uncontrollable drove her into activity, and in it she found peace.

Helmi was happiest when she saw a long day's work ahead of her, nerve and muscle tiring—a day's work that would send her to bed so tired and sleepy that the long black night would go by like a flash, bounded on one side by the moment her head touched the pillow, and on the other side by the first whirr of the alarm clock. She had done all she could for her own little box of a room up under the rafters. She had braided a mat for the floor, and hung blinds of flour sackling, washed white and rolled on a red crocheted cord. She had also made holders for her clothes out of rolled newspapers.

One day Helmi was on her way home from the teacher's house after a lesson in the proper method of let-

Women, Your Manifold Duties Require Strength

St. Catharines, Ont.—"During my early married life Dr. Pierce's Favorite Prescription was very helpful to me as a tonic and nerve. I had become all run-down, my nerves were all upset, I could not sleep, and was weak and miserable. I was advised by my mother to try Dr. Pierce's Favorite Prescription and it relieved me of the nervousness and made me a well, strong woman. Since then I have always recommended it to weak women."—Mrs. M. F. Slack, 5 Francis St.

Cottage Hospital For Women Lepers

Romance Surrounds Gift Of London Postman To Indian Colony

Francis Cardinal, a London postman, who delivers letters in Goswell Road, has sailed for India on special leave to open a cottage hospital which he has built for women lepers.

Mr. Cardinal served in India during the war, and was impressed with the sufferings of the ostracized lepers. After the war he became acquainted with an old woman of nearly eighty, who lived next door, and was also interested in lepers. A bond of sympathy grew up between them, and Mr. Cardinal became a sort of adopted son.

A short time ago the old woman died, and left him a small sum of money, which Mr. Cardinal has put with his own savings, making just enough to build a cottage hospital at the Manamadura leper colony, Southern India, at a cost of £125 and pay for his trip to open it.

Children's Colds Best Treated Externally

That's why modern mothers prefer Vicks—It cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages; (2) It "draws out" the soreness like an old-fashioned poultice.

VICKS
21 VAPORUB

morning—a man at work—and now a thunderstorm! God speaking to the wicked! God would not like to see a man building his house on Sunday, and yet Helmi knew how the man felt. It wasn't wicked—he could not help wanting to build—she knew how he felt—she felt too. Now she was running down stairs and out into the storm.

The sky seemed to split wide open above her head as she ran; the heavens were lashed with knotted cords of flame swung by invisible giant hands. But Helmi ran on. She must get to this man and bring him in. She thought of Peter Snarl, all blackened and burned beside his plough. She called to him above the storm, and he must have heard for he turned toward her, smiling. Then came a flash that blinded her and turned the world into blackest night. Something fell into her arms.

When Helmi opened her eyes a strange prickly sensation was in her arms and feet. She was sitting on the pile of lumber, holding someone in her arms, someone with face ghastly in the wan light, and whose eyes were closed. A cry broke from Helmi's lips. "Jack Doran!" she called; "Oh, Jack Doran, is it you?"

She carried him into the house, his weight seeming nothing to her in her excitement. Her one impulse was to get him to shelter before the storm broke. Big drops fell on his face as she hurried along, and instinctively she leaned further over him to shelter him. There was no lounge or bed downstairs, no place where she could lay him. To her own room she brought him and laid him on her bed. He moaned when she laid him down. Then she ran to alarm the house. The rain was coming down now in torrents, racing in a mad flood down the windows, filling the house with a steady, deafening roar, through which peals of thunder came bursting like cannon.

Mrs. McMann ploughed steamily up the stairs. "He ain't dead," she said, "nor nothing near it, but he's been stunned. You see there ain't a mark on him, but he sure had a nasty wallop. It was lucky for him you saw him fall."

Helmi did not explain. "He'd have been drowned to death like as not if he had been left lying there. Gosh! ain't that one awful rain. We can't send for the doctor just now, that's sure. Anyway, I don't think there's anything to do for Jack but just let him lie. He's breathin' all right, and his color is comin' back."

Helmi watched Jack's pale face anxiously. His cheeks were beginning to lose their ghastly pallor, and his lips were reddening. She noted admiringly the curly hair waved back from the high white forehead, the gracefully arched eyebrows, and the skin of the neck so smooth and white. Helmi touched Jack's forehead gently with her hand. There was something strangely familiar about his face as he lay before her.

For two days Jack Doran lay without speaking. Once he opened his eyes and seemed about to awake, but turned over on his side and went into

another long sleep. The men came to see him and proffered much advice. "Lots of fresh air," they said, "and keep everything quiet, and just leave him alone." Helmi, rolled in a blanket, slept on the floor. The men had suggested carrying Jack to the bunk house, but she had objected. She didn't mind keeping him, she said, and the bunk-house was noisy.

(To Be Continued.)

Honored By France

Memorial For Woman Who Risked Death Daily During War

At Lille there was unveiled one of the war's most fitting monuments. It was to a woman of Lille, Louisa de Dutignies, who as bravely as any soldier on the battlefield laid down her life for her country. During fifteen months from the time of the outbreak of the war she worked behind the German lines, bringing men across the Dutch frontier to serve the allied armies and give military information of the most valuable character.

Death risks were her daily adventures. Once she had to swim a deep canal on a winter's night to avoid a German sentry. Her devices to elude the passport officers were innumerable. In some of her adventures street urchins were her allies. They would slip through sentries and bring back a passport which could be used again, or would divert a sentinel's attention at a critical moment when her subterfuges had been discovered.

She was condemned to death, and though the sentence was commuted, she died neglected in a prison in Cologne from pleurisy only two months before the allied victory for which she had worked without flinching.

Proved Himself a Hero

Commander Byrd Holds Honor For Three Life Saving Feats

Commander Richard Byrd, the hero of the most important, from a practical point of view, of the recent Atlantic flights, is a very modest man, but he holds the honor for three life-saving feats. Twice he has saved men from drowning—once in a sea alive with sharks—and when a Washington theatre roof fell in, burying many people, he wormed his way in beneath a gallery, which threatened to fall at any moment, to extricate a man from under a heavy iron beam. For three hours he worked, although every movement he made increased the danger.

The Oil For the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

A Logical Question

Mr. Harry Tate has a particular penchant for the yarn in which he appears as the victim. This is quite one of his best.

"Carry your bag, sir?" asked an eager youngster.

"No, thanks," Tate replied.

"I'll carry it all the way to the station for twopenny."

"I tell you I don't want it carried."

"Don't yer?"

"No, I don't!"

"Then," demanded the boy, with perfect logic, "what are you carrying it for?"

Minard's Liniment for Grippe.

Want Canadian Graduates

Supply Is Not Sufficient For Demand Say Authorities

American college youths may be proving themselves as it has been declared, unfitted for business, but certainly the Canadian graduate is being snapped up by industry as fast as he is produced, authorities said when asked to answer C. W. Barron, New York editor and writer, who recently said that modern universities were "unfitting college men for practical business." The supply of Canadian college graduates was not sufficient for the demand it was shown in support of the contention that Canadian students were an asset and successful in business.

It is estimated that the addition of 2 grains to an ear of wheat by Luther Burbank, has added \$5,000,000 to the world's annual wheat crop.

Keep Minard's Liniment in the house.

Little Helps For This Week

"If ye love Me, keep My commandments."—John xiv, 15.

Do as thou would'st be done unto; Love God, and love thy neighbor; Watch and pray.

These are the words and works of life; this do. And live; who doth not this hath lost heav'n's way.—Henry Vaughan.

When a man is told that the whole of religion and morality is summed up in the two commandments,—to love God and to love our neighbor, he is ready to cry, like Charoba in Goble, at the first sight of the sea, "Is this the mighty ocean? Is this all?" Yes, all; but how small a part of it do your eyes survey! Only trust yourself to it, launch out upon it, sail abroad over it, you will find it has no end; it will carry you round the world.

—Julius Hare

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R. R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Carnivorous Cow

A German newspaper tells of a carnivorous cow found near Bremen. It was covering a crate of geese standing before the barn, the cow dropped the hay she was chewing, edged her way to the crate, and had devoured five geese before the farmer noticed what was happening.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Saskatchewan Means "Rapid"—Saskatchewan, the name borne by the great river which rises in the Rockies in Alberta and flows through Saskatchewan and Manitoba into Lake Winnipeg, is an Indian word meaning "rapid" or "swift-flowing."

WAS VERY WEAK NERVOUS AND MELANCHOLY

Mrs. Geo. McKenzie, Campbellford, Ont., writes:—"A short time ago I was troubled very badly with my heart and nerves, the cause of it, I think, was my going through the change of life."

"I was very weak and melancholy, and so nervous I could hardly bear to hear a clock ticking, and I did not sleep well."

"I was advised to try

so I sent at once for a box; took them and got another, and before they were all gone I felt good, my nerves are fine, I do not mind any noise, and I can sleep well. I can not recommend them too highly to those suffering as I did."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Radio Is A Lasting Gift

Of all the Christmas gifts none will meet with
greater enthusiasm than a Westinghouse radio set. It
is a gift that the entire family will enjoy, for day after
day your home will be flooded with countless hours of
enjoyment.

In the complete line of Westinghouse Radio Sets
and Radiolas you will find a model to suit your require-
ments, locality and your pocketbook.

For example the Model 57—a battery operated
set many times as selective as the average set. Other-
wise known as "the greatest value in radio". Contains
every improvement found in a set at twice the price.
One dial control. Wide tonal range. Operates on the
newly perfected UX-201-B radiotron which cuts oper-
ating costs in half. The price, without accessories, is
only \$78.00! Come in to-day and judge this model
for yourself.
